

HAPPY HOLLOW VOLUNTEERS

August 28, 2009

Dear Students,

Happy Hollow Elementary School runs a remediation program for 4th, 5th, and 6th grade students who are identified by their teachers as needing extra help with their regular class work. We also offer opportunities for the students to work on their homework, both at lunchtime and after school.

I am looking for Education majors who might be interested in volunteering to help our students. Tutors will be asked to work with students one-on-one or in small groups. The times that we schedule tutors are from 9-11 to work with 4th and 5th grade math students, during the lunch periods from 11-1:15, and after school from 2-3:30. Any amount of time a volunteer can give us will be greatly appreciated.

Happy Hollow School is located in West Lafayette between campus and SR 52. If transportation is a concern, the Salisbury Street bus runs right by the school.

Any interested students can email me at jeannelaws@wl.k12.in.us for more information.
